SEWING MACHINE.

Copy of the Report of the Committee of Awards at the Fair of the

AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

Highest Premium! Gold Medal!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co.. or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

WORSE THAN DEATH.

I had three sons—three darling boys,
Fair as the rosy morn;
And every day I thanked my God
That these three boys were born.

They grew in beauty, and they filled
My humble home with glee;
My widowed life could not be sad,
Since these were left to me.

Death came; a shining mark he found—
My first born stricken lay:
I knelt beside his couch, and prayed
As only mothers pray.

In vain; upon his lips I pressed
One last, long, lingering kiss,
And thought that nevermore my heart
Could know a pang like this.

Years passed; the other two went forth,
To tread life's busy mart,
With health and strength in every limb,
And love in each pure heart.

And when war's clarion blast rang out
Through all our favored land,
My next boy rushed to meet the foe,
Foremost in freedom's band.

Bravely he met the battle's shock;
And history's pages tell
How, with our banner round him wrapped,
My darling hero fell.

He sleeps to-day where marble shafts
Rise o'er the martyred dead;
For him my mother-heart is proud,
Even while these tears I shed

Still one was left—my youngest boy
I folded to my breast,
And thought in his strong heart to find
A refuge and a rest.

But ah, a deeper grief than all
Sweeps o'er my soul to day!
I mourn as never yet I mourned
Above my first-born's clay;

For his pure spirit, free from sin,
Soared to his native heaven.
My next one died for freedom's sake—
His life was freely given.

But this one—over heart and brain
A demon's spell is cast;
Intemperance rules, with iron hand,
My youngest one, my last.

I plead with him—my prayers are scorned;
In vain my tears are spent:
This is the bitterest cup of all—
Is it in mercy sent?

To see him steeped in sin and shame,
He who was once my pride,
With mind debased and heart estranged—
Would that he, too, had died!

My soul is wrung with anguish deep!
Father, I kneel to thee!
Thou who canst break the captive's bands,
Oh, set my darling free.

OUR NEW YORK CORRESPONDENCE.

NEW YORK FEB 29 1868

Another mammoth steamship enterprise has just been successfully established here under a charter from the State of New York, to be called the North American and Italian Mail Steamship Company, which bids fair to occupy as prominent a position in the maritime and commercial world as the Pacific Mail Company. The line will consist of twenty first-class iron propellor steamers of not less than two thousand tons each, touching at the Azores, Lisbon, Cadiz, Barcelona, Marseilles, and Genoa, and returning by way of Leghorn, Naples, Messina, and Palermo, back to New York. Victor Emanuel King of Italy; the Swis Government, and the King of Portugal are extending every aid and co-operation to the movement. The former has already granted a subsidy of one hundred and fifty thousand dollars per annum in gold, for carrying the Italian mails. As the line is exclusively American, under the control of leading New York capitalists, Congress should certainly extend some additional aid and encouragement to an enterprise so worthy of popular approval.

A series of tables has just been published to show the great falling off in the domestic and foreign trade of this city, owing to the results of unwise legislation and the absence of the formerly-existing traffic with the South. It is too lengthy to give in full. Thus the total imports for January are little over fifteen millions, against about twenty-one millions for the same month of last year and thirty millions for January, 1868. It will be interesting to note the changes in this trade the balance of the year. The shipments are chiefly reckoned at their value in paper money. The spece sent abroad is given at its counted or real value, but all others at market price in currency. The total sent aboard in January, exclusive of specie shows a gain of one million dollars upon the corresponding figures of last year, but is far below either of the years preceding that date. The stock of all kinds of merchandise now in bonded warehouses is about the same as it was at the close of last June.

Every thing which resembles the Marie Antoinette style of toilet is all the rage just now in this city, owing to the "Queens of Society" past fifty having sensibly concluded to wear their grey hairs rolled up *a la* turban, after the manner of that unhappy princess. Considering that hair-dyes are so injurious, this, is indeed, a move in the right direction. Powdered hair, with black eyebrows, are decidely *la mode* among the more youthful *belles*. Blonde beauties have had their day and season for a time at least, and are getting out of fashion in the matrimonial market. Brunettes, with dark olive complexions, are now more generally admired, and have the call against all odds, as we say in the money market.

New York has a reputation for female beauty, ranging from fifteen to twenty-two. Our streets give ample evidence of this fact daily. But New York, for some reason not apparent, does not preserve its beauty after twenty-two. It then begins to decline toward the sallow and effeminate, inelastic and unattractive.

The landlords of our hotels have a keen way of making money. It is the custom now for them to give weekly hops at each of their hotels. Supper, music, parlors, attendance and lights are all furnished gratis by the proprietor, but it is expected all the guests will order wine freely, and pay for it when it is served. The sale of the latter nets the landlord quite a handsome profit in return for all his trouble. The idea is borrowed from the balls to the nymphs in the side streets. Modest ladies, however, decline to attend these balls, for the reason that the landlords insist on having some Jenkins of the press present to report their names in full, and how they looked, danced and dressed, etc., in the fashion columns of the daily papers. Our *belles* have no idea of being so extensively advertised for the benefit of mine host and hostess. Temperance people are never invited to these receptions, and the chap that forgets to call for "his bottle" never receives an invitation to attend a second time. Taxing ladies two dollars for a room to lay aside their shawls and bonnets, while indulging in a free supper, is cutting it, to speak profanely, rather adipose.

The celebrated race-horse, Kentucky, regarded by experienced judges the best race-horse on the American turf, has been sold for forty thousand dollars, the same price paid for him two years ago. He is now owned by four persons, who have each invested $10,000 in him. It is intended to bring Kentucky on the turf again this season, and we find him entered for the Westchester Cup, two miles and a quarter for horses of all ages, $50 entrance, with $2,000 added, and for which twenty of the best horses in training have entered. Kentucky has proved himself the best racer of his day, never having been beaten by any horse, except Norfork, in the Paterson Derby. He is by Lexington, dam Magnolia, by Glencoe, and was bred by Mr. John M. Clay, of Ashland, Ky., in 1861. We look for a slashing "four-mile day" with such flyers as these at the spring meeting over the Jerome Park.

Harlem River is frozen over.

Ten first-class ocean steamers left this port on Saturday for European and coastwise ports.

The Committee on Cities of the Assembly has been authorized to sit in this city and Brooklyn during the recess of the Legislature, and take testimony in relation to the workings of the Croton Aqueduct Board, the Metropolitan Fire Department, Brooklyn Prospect Park and the Brooklyn Water Board. These "boards" have each been working on their own hook, independent of the City authorities. Several million dollars yet remain to be accounted for.

The event of the week among the political *quid nuncs* was the election of Matthew T. Brennan as Police Commissioner, in the place made vacant by the death of John G. Bergen.

The bill for the surpression of obscene literature and advertisements has been reported favorably, and will undoubtedly be passed.

The Metropolitan Revenue Board is practically abolished, and the duties hitherto performed by that board revert to the district collectors.

It is a pleasing prospect to houseless New Yorkers that real estate is going up and rents are not coming down. A system of Chinese house-boats on the North River will probably be inaugurated for persons commanding only floating capital.

At the last meeting of the Farmers' Club, lead pipes were declared unhealthy for conveying water for domestic purposes.

As the Prince of Wales claims to be a literary man, Bonner of the *Ledger* has offered him $500 a column to write a series of articles for his paper, the Prince to select his own subjects.

We are likely to have a surfeit of opera. Strakosch is already in the field, Maretzek has taken command of Pike's establishment, and a season of opera di camera has been successfully inaugurated at Lyric Hall, under the management of Carl Anschutz. Grover's German opera troupe is combined with that of Maretzek, thus affording a double chorus and orchestra.

"Pauline," after a brief burial of five years, had a resurection at Wallack's Theatre on Tuesday evening. The "White Fawn" continues the leading attraction at Niblo's. The actual cost of mounting the spectacle was ninety seven thousand dollars, the profit made off of the "Black Crook." The "Fawn" works smoothly, and its manifold splendors are unfolded without hitch or delay. As with the "Crook," several new features are to be introduced from time to time, and a startling one is now on the stocks. Eddy is at the Bowery, playing in Shaksperian characters, making "Rome howl" and the Bowery boys, too. "Jack Cade" is underlined for next week. Maggie Mitchell is playing "Little Barefoot" at the Olympic, a foolish, nonsensical piece, in which she runs around the stage like a spoiled child, without either shoes or stockings on her pedal extremities.

The reading "carnival" is at its height, Murdoch, Fanny Kemble, Vandenhoffs, Eytinge and several others whose names now escape our memory, are trying to play the Dickens in the lecture-room-acting line, and all successfully. Who says the human race is not imatative?

The theatres of this city paid out $250,000 for advertising last year, and all did a good busiuess. Had they made the amount half a million their profits would have increased in proportion.

Skating has reached the altitude of a mania in every city where the weather is cold enough to freeze water. There are now over fifty professional skaters, who skate at "rinks" on stated salaries, the majority of them being females.—Masquerades on ice are now as fashionable as tea parties used to be. So we progress.

The Constituional Convention has now been for nine months incubating upon a new Constitution for the State of New York. The ordinary period of gestation having been acomplished, a delivery may be looked for at an early day. What shape the delivery will take, remains to be seen.

New tenement houses are to be erected in this city on the Paris and Glasgow plan—each to contain six to eight stories.

The Citizens' Association say there are thirty thousand children in this city growing up in ignorance and idleness, with a moral certainty of becoming vagabonds and crimnals.

All the disorderly characters appear to have been frozen up by the recent cold weather. Three or four cases a day constitute the extent of the police business.

The ice bridge across the Hudson, between the towns of Newburgh and Fishkill, is from fourteen to eighteen inches in thichness.

The actual number of free passes on the New York Central Railroad last year, which have been surpressed by the new management, is 36,000.

During the present week, 448 persons died in this city, including 91 deaths in the public institutions. Broooklyn buried only 134 of its inhabitants.

The excessive inclemency of the past two weeks has been severely felt by the improvident and needy classes.

That frigidly inclined vetran, "Old Winter," seems to have buttoned up his coat, turned the corner, and thrown up the sponge to his more nimble-footed adversary, "Young Spring," who has made his appearance thus early for the first time this year. All hail to the new champion, then, if he will only bring warmth to our half-frozen and shivering population. We have had quite enough of snow and ice, sleighing and skating for one season at least.

Gossip from Washington.

A new bill of complaint enjoining Generals Grant, Meade and Ruger has been filed on the part of the State of Georgia in the Supreme Court. The old bill, recently dismissed for want of jurisdiction, contained no specifications of any but political grievences. The new bill remedies this defect, which was really the only objection to the other one, and recites injuries to person and property.

The death of so large a number of senior officers of the Navy—rear-admirals, comodores and captains—the past year has proved greater than in any previous year since the war of 1812. It leaves many vacancies in the naval register to be filled from the lower grades. Heretofore Secretary Welles, it was believed, had the whole management of these promotions, but it now appears that his good man Friday the late Assistant Secretary, G. V. Fox, made them to suit himself, in which the grossest favoritism was shown to many incompetent offices over those who had been many years their senior on the active list, served their country faithfully, and whose only crime consisted in not being on more intimate terms with Mr. Fox. A Congressional committee is certainly needed to look into these naval promotions and check at once a most outrageous abuse of power. This attempt to gerrymander naval officers out of their regular line of promotions is greatly impairing the efficiency of the service.

Who is going to the Court of St. James! If anybody, dispatch him and relieve a suffering nation. Sumner was to go but didn't. Seward was booked for Liverpool and a market, but remains a fatal fixture. And now Gen. McClellan is lugged in as much spoken of in that connection.

A Lieut.-Col. Lee, A. Q. M., U. S. A., being about to sell six government horses by auction at San Antonio, Texas, advertises the fact in the Washington *Chronicle*, in the District of Columbia. This is to attract buyers. Oh, honest Iago! that's the way the money goes.

An English newspaper tells of a circumlocution in the British War Office. It says that there is a tradition, said to be historical, concerning a clerk in the War Office who once wanted a peg whereon to hang his hat. To save the expense of a carpenter he applied for a hammer and nail with which to drive it in himself. Six months passed before he received any answer to his request, and he had long ago set up a peg of his own, when a special messenger of the Tower arrived in Pall Mall with a hammer sent to him at last through the medium of numberless requisitions and authorizations. At the same time he was informed that it was not the province of the Tower officials to supply nails, but that these would come to him from Wolwich, and after a few months' further waiting, they really did arrive—a pound of nails, brought by a great ambulance wagon, with its half dozen horses and its dozen attendants.

Religeous Schism in Hungary.—A new sect has arisen from the bosom of the Catholic Church in Hungary. The votaries call themselves Nazarenes.—They are chiefly of the peasant class, but veil their tenets in much secrecy.—There is reason to suppose that they reject the dogmas of the miraculous birth of Jesus, and have no religious rites.—They have no priest class, but whoever feels inspired in a congregation arises to speak or pray. They refuse babtism to their children, and will swear no oath; nor do they acknowledge any sacred character to marriage, though no polygamy or promiscuity has yet been discovered among them. No distinctive signs of dress or appearance are visible, and they are distinguished in all localities among their neighbors for industry order and sobriety. The Pesth journals frequently allude to them.

A New Theory of the Hair.—The increase in the number of bald heads and heavy beards has often been a subject of remark during the last ten or fifteen years, and both sympathy and ridicule have been freely expended upon the victims. The London *Spectator*, however, comes to the defense of the bald-headed and bushy-bearded gentlemen in a novel and ingeneous manner. It holds that "beards are beneficial, diverting the heavy and rapid growth of hair from the head, where it is an intolerable burden, to the chin, where it is comparatively harmless." It is to hoped that comfort will be found in this sugestion for those interested.

About 9 o'clock this morning, says the *Dramatic Chronicle* of the 19th inst., a terrible accident occurred on the corner of California and Battery streets, which resulted in the death of one man and fatal injury of two others. At this place they are pulling down a number of old brick building and had removed the roofs and front walls and left the divison walls wholly unsupported. One of these walls fell this morning burying three laborers, killing one and horribly mutilating two others, breaking both the arms and legs of one of them. As we go to press they are lying in the street where they have been for a half hour, without having received the assistance of a surgeon.

Sunmer in Jerusalem.—During the two months of March and April, it (Jerusslem) is a dense mass of flowers of an incomparible freshness of color. The animals are small, but extremely gentle. Lively and graceful turtle-doves, bluebirds so slight that they can light upon a blade of grass without bending it, crested larks that come almost to the feet of the travlers, little brook turtles with quick, soft eyes, storks of grave and modest air, putting off all timidity, allow themselves to be approached very closely by man, and seem to call him. In no place in the world do the mountains spread out with more harmony, inspire loftier ideas.

Gilroy Railroad.—The San Francisco and San Jose Railroad Company advertise for sealed proposals for the graduation and bridging of the Southern Pacific Rrilroad from San Jose to Gilroy, said proposals to be made and sent in before the 26th inst. The award of the work will be made April 2d, work to be commenced on or before the 11th of that month, and ample security will be required from the successful bidder that it shall be completed on or before August 1st, proximo.

The following letter is a perfect model in its way. We certainly hope it is a unique specimen: "Dear Brother, I've got one of the handsomest farms in the State, and have nearly paid for it. Crops are good and prices never were better. We have had a glorious revival of religion in our church, and both our children (the Lord be praised) are converted. Father got to be rather an incumbrance, and last week I took him to the poor-house. Your affectionate brother."

The Virginia *Trespass* says: The weather has softened, 'The rude March wind' doesn't wind as hard as it did, nor as often—and the breathing material is served up with sunshine now, and comes softly, genially to one as a calico sleeve about one's neck; and the birds sing, and the grass is starting; and Nature is beginning to look as springy as a hoop skirt.

Transplanting Trees.—In taking up a tree it should be so marked as to secure its setting out in the same position. Thus the north side should be marked with chalk, before the work is commenced. If the side which has been exposed to the north is turned toward the south, the heat of the sun is too great, and it dries up and loses its vitality.

A Newly installed Justice of the Peace in Kansas married his first couple lately, on which occasion he closed the ceremony with the following words: What I have this night joined together no man but God Almighty put asunder."

Belmont.—Busines at Belmont, Nev. is excessively dull. Somehow the Combination Mill does not turn out as much bullion as people were led to expect, and most of the mining work being suspended, there is scercely and money put into circulation.

The Reese River *Reveille*, of the 2d inst., says a new and important mining district has been discovered in the eastern part of Nevada. It is about one hundred miles south of Eagon Canyon.

Licking county, Ohio, has 316,886 sheep, being the highest on the list in the State. Harrison, Muskingum and Knox, follow in the order named. The total number of sheep in the State is 7,555,507, valued at $20,360,302.

The case of William Briggs and William Ware, who are under indictment for playing the game of faro, came before the County Court, San Francisco, on Thursday. Trial probably concluded on Friday or Saturday.

The Stockton *Gazette* of the 17th inst., says: "The Sacramento stage was obliged to turn back yesterday morning, after getting about one mile out of town. Water and mud rendered it impossible to proceed further"

The affairs of the Oroville and Beckwourth Pass Railroad Company says the Butte *Record*, are said to be in a good condition, and the prospects for a speedy commencement of the work are decidedly flattering.

The ship which was to propel itself, has been duly launched and tried at San Francisco. She capsized, and then floated out to sea.

MINING.—Thursday, We paid a visit to the claims of Messrs. Staples Bros. situated west of town. They are now using in the Waukegan claim two hundred and fifty inches of water and two pipes; their dirt is carried off through four hundred and eighty feet of sluices. The bank is nearly two hundred feet high—the loftiest in this place. They have been washing steadily through the Winter. About two hundred yards further down the ridge they are running one pipe with about one hundred and fifty inches of water, in the Washington ground. They have five hundred feet of sluices in this claim. A large slide—about ten acres—has obstructed the work in this claim for several days but they are now getting it clear again. They are meeting with very good success.

IMPROVED ADJUSTABLE GUIDE.—We were shown a few days since, a pattern of an adjustable guide for quartz mill "stems" invented by Mr. Geo. O'Neal of this place. The guide is nothing more than two rollers which are made to fit close to the "stem," and which, of course revolve as the "stem" is raised up, the object being to avoid the trouble usually experienced, of the bolt heads working off, and to stop the great friction usual with the present guides, we confess our inability to explain the construction of the machine, without presenting a drawing of it, hence we will not attempt it; but our observations lead us to believe that it will be quite an improvement on the old guide. Mr. O'Neal, contemplates trying it at Kings' Mill on to-day or to-morrow.

THE Arizona *Miner* says, James S. Giles, who has recently visited Skull and other vallies on the Prescott and La Paz road, gives it as the result of his observations, that four times as much land will be planted and cultivated this year as there was last year. He says that people have ploughed land this year, which in '63–4 nobody would think of raising a crop upon. He is strongly of the opinion that our high *mesa* or table lands can be made to produce wheat, corn, etc., in large quantities.

OLIVE OIL.—We were shown, a few days since, a bottle of olive oil, from the Mission of Santa Barbara. We are assured that this article can be produced in abundance in that locality, as the trees grow very thrifty and bear well. Presuming this to be the case it appears to us that this must become, before long, an important article in the list of California produce.

THIS is the last regular day, of the seventeenth session, of the California Legislature. To-day, by law, they must adjourn, and a right happy day it is to the people of the State. This session of the Legislature has been discreditable to the State. May its evil deeds pass away with it.

DAVE MYERS.—This enterprising, good-looking, affable, jovial gentleman has taken charge of the Golden Eagle Saloon, just above Seffens' Hotel where he deals out the finest wines, liquors, and cigars ever offered to a Dutch Flat customer, Give him a call and be convinced,

FISH.—We are, or somebody about our ranch'o is, indebted to JAMES T. MATHEWSON, ESQ., for some fine mountain trout. They were excellent and we appreciated the favor. May you ever eat trout, Jim.

MITE SOCIETY.—The meeting of this society took place at the residence of N. W. Blanchard on Tuesday evening last. We learn, unofficially, that the next meeting will take place at the Golden Eagle Hall.

THE BIG BLAST.—The blast of Mr. James Taeff, which we mentioned he was preparing, a few weeks since was touched off on last Friday evening and created quite a stir in the dirt.

SOCIAL CIRCLE.—We are requested to announce that the social circle will meet at the residence of Mrs. Elisha Bradley, on next Friday evening. A cordial invitation is extended to all to attend.

THE UNION PRIMARY.—On account of the extensive notice of the Union primary given by the Central Committee through the "Organ" at Auburn *forty-five* votes were polled at this place, the largest precinct in the county; hardly any of our citizens knew that any such thing as a primary was to be held. We are reliably informed that in many of the precincts no election therein was held. We should think that the folly of making any paper the organ of a party in this or any other county was too well known to be practiced by men possessing as good sense as the gentlemen who compose the Union Central Committee of this county. Unless proper notice is given a fair expression of the sentiment of the people cannot be obtained.

"BUSTED."—On Tuesday the "big pipe" of Bradley and Gardner's which is used to convey water through the cuts above town bursted and caused about one hundred an fifty feet of the pipe to colapse with the force of the air. It caused a temporary suspension of work in some of the claims which depended on the pipe for their supply of water. The pipe was repaired and water turned in again on Friday, but we learn that it bursted again almost immediately.

FATAL ACCIDENT.—On Monday evening last a distressing and fatal accident occurred at Cisco. As the train was being made up quite a number of persons were standing on the track, and as they saw the cars in motion all got out of the way save one, a man named Joseph Barrett, who slipped upon the snow and fell, and was run over by the train and killed. The *Bee* says his right thigh was torn open and the left thigh bone absolutely crushed to the hip, although the skin was not broken. The hemorrhage was excessive, and he survived the accident but a short time. He leaves a wife and, we understand, several children in Sacramento.

NEVADA COUNTY—MINING NEWS.—The Nevada *Gazette* has the following:

The main tunnel of the Chalk Mountain Blue Gravel Mining Company is now in three hundred and fifty feet, and channel was struck some ten days ago. Before the Company had been "breasting" half an hour, it took out a two ounce nugget. The gravel prospects well. About half a mile from the above point the same company has another tunnel in a distance of one hundred and twenty feet, which has just tapped the channel, from which good prospects are obtained. This company also has a bedrock tunnel at the North Fork of Greenhorn, which is in one hundred and twenty feet, and from indications is but a few feet from the main channel. This channel is a continuation of the one at the Cascades.

The Red Diamond Company, immediately below the Chalk Mountain and Blue Gravel Companies' claims, at the Cascades, and on the same channel, has been taking out gravel from its tunnel that yields one dollar and a half to the pan. The tunnel is in three hundred feet. Snow, at the Cascades, is about six feet deep, and is a serious impediment to mining operations in that vicinity. The successful opening of this great ancient channel, at the Cascades, will present a new field for gravel mining that has hitherto scarcely been touched.

Hon. W. M. Gwin and a large party of capitalists, from the Bay, who are interested in the first mentioned claim, passed through our town on Thursday to pay a visit to the mine.

A San Francisco dispatch to the *Record* says: Private advices state that a battle occurred between the forces of Rubi and Martinez, which resulted in the defeat of the forces of the former. Corona is daily expected at Colima with sufficient troops to insure the disposition of Martinez and the reinstatement of Rubi to the Governorship of Sinaloa. Several vessels have discharged cargoes under the reduction of the duties granted by Martinez, contrary to the instructions of the General Government. The merchants expected to have reimbursment to the amount of about half a million dollars when Rubi assumed authority. Two United States war vessels are at Mazatlan.

SANTA BARBARA.—A correspondent of the *Alta*, writing from San Buenaventura, informs us of the wreck of the schooner Patta, formerly a San Francisco pilot-boat, on the 14th. The Patta has been conveying freight from Santa Barbara to Buenaventura, and was anchored off the latter place, when the cable parted and she was driven ashore. Her freight consisting of merchandise for Messrs. Gilbert & Son, Cohn & Mansfield, and William Ayers, of the Mission Hotel, was all saved with but little loss. The vessel sustained but slight damage, but still so great that the owners are too poor to repair her, and therefore she will be sold in a few days.

FOUND A NUGGET.—Joseph McLaughlin, while strolling around near Ophir, last Friday, observed a quartz boulder projecting from the ground, and out of curiosity, stooped down and pried it out. The operation disclosed a chunk of gold thickly studded with quartz, which upon being crushed in a mortar yielded upwards af $300. "Sich is luck," and so we go, notwithstanding the mines are "played out."

THE Amador *Ledger* says that a large amount af bogus gold dust has been manufactured and sold in the vicinity of Fiddletown, lately. The imitation is so perfect as to deceive the most experienced buyers. The apparatus for manufacturing it has been discovered, but the makers are still at large.

IT is stated that the Opposition Steamship Company are issuing tickets for cabin passage to New York and return within six months, at $100 the round trip.

PROPERTY FOR SALE.—Any one wishing to make a good investment can do so by applying at this office.

[COMMUNICATED.]

There are some men who consider it a great pleasure to follow in the footsteps of the "weaker sex." and meet together every two or three evenings, to compare notes, and manufacture scandal, and take great pains in the *interim* of their meetings to circulate their venomous stories. Mankind cannot be too careful how they play with words; a slight depreciation of the character of a friend, though, as is often the case, said in a joke, or without any really ill intent, is, in the hands of a scandal-monger soon manufactured into stories that would make enemies of the best of friends. They who deal in this underground system of black mail seize upon the slightest "straw," and hasten to attack the purest "flower." This class of men are known to a careful observer by the way they tell their stories; always prefixing them with the words "they say" so and so; ask him, however, who says it, and he tells you with a stammer that he has forgotten. No one forgets thus early, if he does he prefaces his story with the remark that some one who's name and reliability he has forgotten told him it—but if he is a man of good sense he never reiterates a story the name and reliability of the author of which, he has forgotten. The way to avoid being mixed up in any scandal broils, which are the most disagreeable of all troubles, is never to tell anything you cannot substantiate, and never then unless it speaks the praise of the parties concerned. C.

STATEMENT.—The following is the First Semi-Annual Statement of the Oakland Bank of Savings, for the Six Months ending March 1, 1868: The semi-annual meeting of the stockholders of the Oakland Bank of Savings, was held at their office in this city, on the evening of the 2d. From the report of the Directors to the stockholders, we are furnished with the following summary of the past six months' operations:

From the net profits of the past six months a dividend of one per cent, was declared to the stockholders and depositors of the first class, and ten per cent to depositors of the second class, payable on and after the 10th inst.

The following Directors were elected to serve until next January: Samuel Merritt, E. M. Hall, A. C. Henry, P. S. Wilcox, and W. W. Crain, Jr.

Subsequently, at a meeting of the Directors, A. C. Henry was chosen President; E. M. Hall, P. S. Wilcox and A. C. Henry, Finance Committee; Samuel Merritt, H. C. Lee, and E. C. Sessions, Auditing Committee; and J. L. Browne, Cashier.

MARRIED.—Miss Mary G. Collins, says the *Bee*, sometime since sued Henry M. Condon, all of Grass Valley or thereabouts, for breach of promise of marriage and obtained judgement against him for $2,000. This occurred in January last, and on last Saturday evening the parties were married.

LECTURE.—Dr. J. E. Dwinelle, of Sacramento, is to deliver a lecture in Union Hall, Roseville, on the evening of Wednesday, April 1st., as we learn from the *Union* of last Tuesday. Subject of the lecture not stated.

SPRING-LIKE.—We notice that some of the peach trees about town are beginning to blossom, which reminds us of the approach of that welcome guest, spring.

IT is said that the Mahoney Mine, of Sutter Creek, has been sold in San Francisco for $250,000.

THE amount of bullion assays, says the Boise City *Stateman*, returned to the U. S. revenue office, for that district, for the month of February is $220,709, currency.

THE Governor has approved the bill for an Act to create and organize the University of Colifornia.

The steamship Oregonian which sailed on the 25th carried three hundred thousand dollars in treasure, shipped by the Bank of California, and twenty-five hundred barrels of flour for New York.

PACIFIC

BUSINESS COLLEGE,

MECHANIC'S INSTITUTE,

POST STREET, Between Montgomery & Kerney

SAN FRANCISCO,

The importance of a thorough and practical business training for those who contemplate entering the mercantile profession, is too well known to require much comment. Without such knowledge, the young merchant will become involved in many embarrassments which might otherwise be avoided. The youthful aspirant will find himself surrounded by inextricable difficulties, both in seeking a situation, and in the discharge of its duties after employment is obtained. To have received instruction at a mercantile college, endorsed by the leading merchants of the city, is more effective in winning the favor and confidence of a business firm, than all the letters of introduction which friends can give. The

Pacific Business College

maintains a reputation for thoroughness and systematic training, far surpassing that of any other similar institution on the Pacific coast. Most of the leading merchants of this city have employed graduates from this College, and bear testimony to the practical efficiency of the cour e here prescribed. The system of actual practice embraces all the varied operations of real business. A Ladies' Department has lately been added to this popular institute. This spirit of enterprise cannot fail to draw forth the well-wishes of the public.

Address for all information,

VINSONHALER & DE LAGUNA,

A CARD

We the undersigned, merchants and business men of San Francisco, California, are at the present time, employing men who have completed the prescribed course of study at the Pacific Business College, and we take pleasure in stating that we have found them well posted in accountantship and the general principles of business, showing conclusively that they have been subjected to a thorough drill in those important matters, by experienced and competant instructors.

We cheerfully recommend the College as being in our opinion, an institution of intrinsic merit, and well worthy of the confidence and support or the community.

SOME years since, while residing in the city of Providence, we heard much said in Praise of Perry Davis' Pain Killer. We listened incredulously to these testimonials. Well, health failing, as a last resort, the doctors sent us to Minnesota. The winter was intensely cold, and a terrible form of Neuralgia prevailed among the settlers, and we fell into the grasp of the disease, and day and night, for weeks, endured untold agony. Many remedies were tried without avail. One day, however, a stalwart frontiersman entered the room, bearing in his hand a vial partly filled with a reddish liquid. It was some of the Pain Killer. He had bought in California three years before, and had kept it with miserly care until then. Applying it externally and internally gave immediate relief. Since then, we have recommended it successfully in cases that baffled the best medical skill; and, when we see persons reject this remedy, we recall our own experience, and think that the time may come when pain incurable by other agents, may teach them the value of this great discovery.—*Home Monthly.* c21 1m

SITUATION WANTED.

ED. ENQUIRER:—My attention has been attracted by the correspondence going on in your paper between Mr. Chintz and the ladies, from which I gather that Mr. Chintz is in accordance with Miss JENNY'S advice, about to set up a matrimonial establishments in this place In fact, I am told that he has already sent below for the lady, and is looking about to secure the services of a friend as Master of Ceremonies on the wedding occasion. I am a friend to Mr. Chintz and would officiate with pleasure. Am a machinist by trade of rare cunning, out of employment at the present writing, and would like to engage permanently with Mr. Chintz to run madam. I am a poet, also; a poet by right of my own invention, as I have a little machine, entirely of my own construction, which will turn out any number of verses on any subject in any given time; the vein is decided by the turning of a screw and a little added velocity in turning the crank, I could celebrate the Chintz nuptial ceremonies in a very superior and appropriate manner at the shortest notice. Afterward, it would be handy to have about the house to sing praises to madam. Have other little machines which would be invaluable about the establishment, and could invent still others. Am master of many trades, and familiar with most callings, and think I could, in addition to the duties of machinist, fill the billet of man-of-all-work about the establishment to Mr. Chintz's entire satisfaction. Would, if provided with the necessary livery, guarantee to appear and defy detection, as cook, steward, butler, coachman, gardner etc., and for the amusement of the thing, would not object to engage in other little pleasant deceptions. Also am, as may be perceived by these presents, acquainted with the art of writing for the press, would esteem it a pleasure to assist a gentleman of literary taste in his labors of composition, sit up nights and work on his manuscript and interlard them with little jokes of my own which would astonish the natives, and guarantee to be up betimes of mornings to wind up Mrs. Chintz, superintend her earliest morning devotions and put her in motion for the day. Wages not so much of a consideration as distinguished patronage, and a home where things would go on like clock work. Would like to engage with Mr. Chintz from another consideration: Have heard that the Misses JENNY and MARY JANE are going into service in the same establishment, the former as lady's maid to Mrs. Chintz, the latter as governess to the Chintz offspring, and would like to have an opportunity to exchange ideas with the sensible MARY JANE, and to stand a chance of being "finished up," polished off and made perfect by the dashing Miss JENNY. Think MARY JANE would make a very proper and steady going governess, but have an idea that Miss JENNY and madam would have "little spats" occasionaly; would like to bet on madam "going down" as often as she "missed stays" and collided with mamselle, at which times the services of the undersigned, in the way of repairs would be found invaluable; but should as mechanician, endeavor to guard against such little household disturbances by strict, attention to madam's etceteras, etc. Presume this screed will meet Mr. Chint'z eye, and beg a response to my "proposition" by next week at least, as I have a "good thing" in view which I am talking of going into very shortly. MECHANICIAN.

P. S. Would caution Mr. Chintz against two persons named BACHELOR and PEEPER who may apply for situations in his establishment. They are very suspicious characters who have lately appeared among us, and are not to be trusted. Nobody knows who they are. M.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and heatlh of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natu result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he in sist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

PILLS.

DR. RADWAY'S PILLS.—Dose—For Regulating the Liver, Stomach, Bowels, and Kidneys, *One* Pill at *Night*. For Obstinate Diseases and Chronic complaints 4 to 6—every 24 hours. As a Dinner Pill, one Pill one hour before dining will ensure a good appetite, and healthy digestion.

DR. RADWAY'S PILLS ARE COMPOUNDED FROM VEGETABLE EXTRACTS, Coated with Sweet Gum, and are the best, quickest, and safest Purgative, Aparient, Anti-Billious and Cathartic Medicine known to Medical Science.

One of Dr. Radway's Pills contains more of the active principle of cure, and will act quicker on the Liver, Bowels, Stomach, Kidneys, Bladder, Blood, &c., than four or six of the ordinary common Purgative Cathartic Pills sold under various names, or than ten grains of Blue Mass.

TRUE COMFORT FOR THE AGED AND OTHERS AFFLICTED WITH COSTIVENESS AND PARALYSIS OF THE BOWELS.

ONE TO THREE OF RADWAY'S PILLS once in 24 hours will secure regular evacuations from the bowels. Persons who for 20 years have not enjoyed a natural stool, and have been compelled to use injections, have been cured by a few doses of Radway's Pills.

READ THIS.

New Albany, Ind, March 12, 1867,

For forty years I have been afflicted with costiveness and for the last twenty was compelled daily to resort to injections to secure an evacuation. In December last I commenced the use of Radway's Pills. After taking a few doses my liver, stomach, and bowels were restored to their natural strength and duties. I have now a regular movement once a day, and, although 80 years of age, feel as hearty and strong as I did 40 years ago.

Dr. Radway, N, Y. THOS. REDPATH, J. P.

MEDICAL DISEASES.

Persons engaged in Paints, Minerals, Plumbers, Type Setters, Goldbeaters, Miners, as they advance in life, will be subject to paralysis of the bowels; to guard against this take a dose of Radway's Pills once or twice a week as a Preventative.

DR. RADWAY'S PILLS CURE ALL DISEASES,

Of the Stomach, Liver Bowels, Kidneys, Bladder, Nervous Diseases, Headache, Constipation, Costivenese, Indigestion, Dyspepsia, Billiousness, Billous Fever, Inflamation of the Bowels, Piles, and all derangements of the Internal Viscera.—One to six boxes warranted to effect a positive cure. Purely vegetable, containing no mercury, minerals or deleterious Drugs.

Dr. Radway's Pills sold by all Druggists and Country Merchants.

Price, 25 Cents.

HIGH ENDORSEMENT FROM THE MEDICAL COLLEGE OF PRUSSIA.

DR. RADWAY

Is in receipt of an important official document, signed by the Professors of the Medical College of Breslau, Prussia, embodying the result of an analysis of RADWAY'S REGULATING PILLS.

"The Faculty of the College state in their report that after a careful and minute examination, they have the honor to state that the pills are not only free from every substance injurious to health, but are composed wholly of substances and elements promotive of digestion, and certain at the same time to act favorably upon the nervous system, &c., &c., They state, further, that the injuious rumors set afloat by the Prussian apothecaries originated "in a spirit of trade jealousy excited by the great celebrity attained by the Pills within a very brief period."

Signed on behalf of the College,
DR. PHIL. THEOBALD WERNER,
Director of the Polytechnic Bureau
DR. HESSE, *First Assistant.*

INDIGESTION!

In cases where natural evacuations are difficult to secure, and a quick discharge is essential, take six of Radway's Pills and pulverize them,—take the pill powder in water or preserves,—in half an hour they will operate. We have known the most distressing pains of Gastritis, Billious Cholic, Inflamations, Congestion, &c., stopped, and the retained irritating humors expelled from the bowels in thirty minutes by this treatment. It is however, better in chronic cases is to take the pills as they are, and let them gradually dissolve in the stomach. These Pills possess in the highests degree cathartic, aperient, tonic, and diaphretic properties. They do not weaken or debilitate the system or any of its organs, and will leave the bowels regular and healthy. They purify and equalize the circulation of the blood. No congestion or inflamation will occur while the system is under their influence. Price 25 cents per box, or 5 boxes for one dollar.

REDINGTON & O.'S

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

It is not surprising that you should be reluctant to try something else after the many experiments you have made on trashy compounds foisted on the public as a certain cure; but

NEWELL'S
PULMONARY SYRUP

is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of

NEWELL'S
PULMONARY SYRUP

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

NEWELL'S
PULMONARY SYRUP

has cured thousands and it will cu YOU if you try it. This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all deleterious drugs, and perfectly harmless under all circumstances.

ALL OVER THE WORLD

People of sense and judgment have learned o use

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Feverish Lips, Bad Breath, Sallow Complexion, etc., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old are delighted with its effects.

The first trial always has a marked effect.

No change in diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France for the enormous price of its weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, etc.

CASCARILLA BARK.—For Diarrhœa, Colic and diseases of the stomach and bowels.

DANDELION.—For Inflammation of the Loins, and Dropsical Affections.

CAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism—etc.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-budge, orange. charaway, coriander, snake-root, etc.

Another wonderful ingredient, of Spanish origin imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

With this recipe before the community, and evidence of effects meeting them on all sides, the success of DR. DRAKE stands founded upon the rock of truth. Almost every family has some cases of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. It is put up only in our log cabin bottle. Beware of bottles refilled with imitation deleterious stuff for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

MEXICAN MUSTANG LINIMENT

The merits of this Liniment are well known. Its effects are instantaneous, soothing and wonderful.

Cuts, bruises, sprains and swellings are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLCWING:

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, etc., and all say it acts like magic."

J. W. HEWITT,
Foreman for American, Wells, Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.

Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the private U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. *Look closely!*

Sold by all Druggists and Stores, at 25 and 50 cents and $1.

LYON'S FLEA POWDER.

It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of Fleas, Ticks, Bedbugs, Roaches etc.: that it is perfect poison to the insect tribe but entirely harmless to the human species and domestic animals.

Bedbugs, Ants, Roaches, etc., are in every house. This powder is their natural death. It should be in every cupboard.

Sold by all druggists and general storekeepers in every town and mining camp on the Pacific coast.

DUTCH FLAT ENQUIRER.

THE OUTCAST.

Her smympathies are yours and mine,
Her heart is full of human love,
Her tastes, in spite of tinsel shine.
Do naught against her nature prove;
Not less her pity is than ours.
Nor her joys an idle jest;
Sharp are the thorns beneath the flowers
She clasps unto her woman's breast.

She came into her life of blame,
Like us, in helplessness of grace,
Unconciously received her name,
Unconciously assumed her place;
Blessed with maternal care or cursed
With poverty's neglect, she rose
Through years' graduation, and rehearsed
Her future of allotted woes.

It was not if she could or would;
She took her fate, like us, on trust;
Her follies are no natural mood.
Nor does she choose for jewels, dust;
For had she chosen, well we know,
Her life had been our counterpart,
With more perhaps than we bestow
In sympathies of mind and heart.

The glances of her evil eyes
On us pass judgement none the less,
Than we who walk in saintly guise,
Condemning what we only guess,
Where we discern a gulf between,
She sees a simple line of chance,
And holds that we like her had been,
But for the chain of circumstances.

The stars that guard the lovers' talk
Are not more chaste with holy light
Than when they guide her wayward walk
Through the waste places of the light;
And she and we beneath their rays
Reason the same, or reason not,
And misinterpret others' way
To make our own the happiest lot.

And which of us the saints shall say
She's wholly wrong or partly right?
Or who, beneath that painted clay,
Pronounce there is no blameless white?
Then cast not at her stones of pride,
Low-stooping from her hight above;
But, moving humbly at her side,
Lift up her life with saving love.

ODDS AND ENDS.

PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES.

DR. W. K. DOHERTY'S Private Medical and Surgical Institute,

Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular powers, palpitation of the heart, irritability, nervousnes extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility and all other diseases peculiar to females, she should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred, Dr. Doherty takes this opportunity of observing, that all letters are opened only and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay.

Address,

A CARD FROM THE

AMERICAN WATCH COMPANY

Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres, Lepines and so-called Patent Levers—which soon cost more in attempted repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations, from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enamelled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIME-KEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

PATENT MEDICINES.

HELMBOLD'S BUCHU.

THE ONLY KNOWN REMEDY

FOR

DIABETES,

IRRITATION OF THE NECK OF THE BLADDER, INFLAMATION OF THE KIDNEYS CATARRH OF THE BLADDER, STRAGUARY OR PAINFUL URINATING.

For these diseases, it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of Helmbold's Buchu will relieve you.

PHYSICIANS AND OTHERS

PLEASE NOTICE.

I make no secret of ingredients. Helmbold's Extract of Buchu, is composed of Buchu, Cubebs, and Juniper Berries, selected with great care, prepared in vacuo and according to rules of

Pharmacy and Chemistry.

These ingredients are known as the most valuable Diuretics afforded.

A DIURETIC

is that which acts upon the kidneys.

HELMBOLD'S EXTRACT BUCHU

ACTS GENTLY

Is pleasant in taste and odor, free from all injurious properties, and immediate in its action.

FOR THE SATISFACTION OF ALL

See Medical Properties contained in the Dispensatory of the United States, of which the following is a correct copy:

"BUCHU. Its odor is strong, diffusive, and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, morbid irritation of the Bladder and Urethr, diseases of the Prostrate, and Retention or the Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy."

[DR. KEYSER is a physician of over thirty years' experience, and a graduate of the Jefferson Medical College and of the University of Medicine and Surgery of Philadelpia.]

MR. H. T. HELMBOLD:

DEAR SIR:—In regard to the question asked me as to my opinion about BUCHU, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such inedicate agent would be indicated.

You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgement, is warranted by the facts.

I have seen and used, as stated before, every form of BUCHU—the powdered leaves the simple decoction, tincture, fluid extracts; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years experience ought, I think, to give me the right to judge of its merits, and without prejudice or partiality, I give yours precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other proprietary compound of whatever name, or any other Buchu.

Respectfully yours, &c.,

MEDICAL.

THE SCIENCE OF HEALTH.

Every Man His Own Physician.

HOLLOWAY'S PILLS,

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, fliental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic. Its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have per tinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Legs,
Burns,	Rheumatism,	Sore Breasts,
Chilblains,	Ringworm,	Sore Heads,
Fistula,	Salt Rheum,	Sore Throats,
Gout	Scalds,	Sprains,
Stiff Joints,	Tetter,	Ulcers.
Lumbago,	Skin Diseases	Venereal Sores,
Sores of all kinds,	Mercurial Eruptions,	
Swelled Glands,	Wounds of all kinds.	

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles iis dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine, WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, or NO PAY REQUIRED, at the

Private Medical Institute,

Seminal Weakness or Spermatorrhœa.

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its apperarance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

DR. JULIEN PERRAULT. Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco, Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramen streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after-ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc, The patient will probably complain of Dizziness, Vertigo and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, bness of the body, Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.

THE HOWE
SEWING MACHINES,
Manufactured by the
HOWE MACHINE COMPANY
Elias Howe, jr., Proprietor,
No. 609 Broadway, N. Y.

For Families and Manufacturers.

They are celebrated for doing the best work using a much smaller needle for the same thread than any other machine.

The New Improved Family Machine is without a rival, and cannot be surpassed—a Hemer, Feller, Braider, Quilter, and Guide, go with each Family Machine free of charge.

Every machine is as near perfection as the best machinery in the world can make it.

They are adapted to all kinds of Family sewing and Manufacturing of every description, making a beautiful and perfect stitch, alike on both sides of the articles sewed, and will neither rip nor ravel.

The parts being exactly alike, if any part needs to be replaced, the operator can replace, it.

Loss of time and expense of sending to a machine shop rarely occurs.

The Best Machine in the World.
